Researchers Name(s):	Jacob Alexander Cameron Rivett		
Project Title:	Molecular Structure Drawing Prediction		
School/Unit: (Please indicate)	Computer Science	Supervisor:	Simon Dobson
Emails	jacr@st-andrews.ac.uk	Date Submitted	

**Rationale:** Please detail the project in 'lay language' addressing the reason for conducting the research; including details of participants and location. *DO NOT exceed 75 Words (for database reasons). This summary will be reviewed by UTREC and may be published as part of its reporting procedures.*

The reason for the experiment is to measure the effectiveness of predictions made by my project. We would need anonymous users that know how to draw molecular structures. All participants would have no information or images of them stored.

**Ethical Considerations:** Please detail the Ethical issues with full seriousness addressing all issues raised by the research and explain how these issues will be addressed. *DO NOT exceed 75 words (for database reasons). This summary will be reviewed by UTREC and may be published as part of its reporting procedures.*

There should be no ethical issues as the experiment will only gather anonymous feedback and not require any data to be held about participants.
